

WORLD DANCE SHOWDOWN 2026 COMPETITION RULES

Updated 01-09-26. Subject to changes. Please check back for updates.

The World Dance Showdown is an independent dance event hosted by Dale and Tanya Curry from Ft. Wayne, Indiana. The purpose of this event is to provide dancers with an opportunity to develop their dance skill, socialize with other dancers and perform in front of a supportive audience of their peers. Dancers of any experience level are invited to attend and participate in the social dance competition. Competitors will be judged fairly and earn valuable experience that will prepare them for other dance competitions.

The World Dance Showdown is a dance event for dancers who enjoy line and partner (couples) dances and gather their friends to create routines and dance those routines as a part of a couple, as a line dancer, as a choreographer or with a dance team. Competitors are encouraged to utilize proper dance technique, dance positions, styling and recognizable lead and follow techniques in their dancing. The competitions offered at the World Dance Showdown are for social dancers although professional dancers may participate in certain categories.

These rules describe the competition divisions and categories for dance team, line, couples and choreography competition. Please check in regularly for updates to these rules. As a competitor, you will be responsible for knowing and understanding the most current version of the rules on competition day. Please contact Dale and Tanya Curry if you have any questions at 260-466-2484 or hellotanyacurry@gmail.com.

Dancer unity and camaraderie are essential to a dance competition event. Although dancers will be ranked and awards given to the top dancers in each category, it is important to remember that we are one community, working together to promote line and partner (couples) dancing. We recommend that line dancers, couples, choreographers and dance teams seek out and meet each other and support and cheer for each other during the dance competitions and after the event is over.

COMPETITION REQUIREMENTS

Applies to all competitions at the World Dance Showdown:

The dance competitions at the World Dance Showdown include line, solo and partner/couples dances. Couples competition dances include Two-Step, Cha-Cha, East and West Coast Swing and Country Swing, Line dancers will compete in one of three pre-selected line dances for their division. Choreographers can create line and pattern partner dances for the choreography competition. Dance Teams can enter their routines in one or more of the categories for line, solo, partner/couples and combination routines. Teams can have two, three, four or more dancers.

The Legacy dance team division is for dancers over 55 years of age. Safety is a priority when performing dance routines. Because of this lifts, drops, aerials, stunts, acrobatic moves, throwing and carrying of dancers, splits, lying and sitting on the floor are only allowed in the Show-Stopper dance competition category only and should be used with great caution. Please notify the competition coordinator if lifts, drops, aerials and stunts are going to be used before the competition starts. We recommend a spotter from your team be placed on the floor while you are performing to monitor a stunt.

Dancers should demonstrate basic step patterns and variations of those step patterns in their routines. Routines may include multiple line and partner dances and sections of solo dancing that match the phrasing of the music. The word "solo" refers to any dance steps or patterns that are not part of a line dance or partner dance. Dancers might add a section of solo steps to change formations, accent a tag in the music or play (act-out) sections of the music. Solo movements take the dancers out of their basic line dance or partner dance routine momentarily as they move across the floor. Variations to line dance steps can be used. The choreography should match the theme and lyrics of the song. Dancers are encouraged to change formations, use hand motions, vocals, poses and facials during their routine and utilize these dance movements to emphasize segments of the song to entertain the audience.

Dancers in line/solo dance team routines may connect for up to 8 counts of music at a time. These periods of connection should be limited because the routine is primarily for dancers performing their individual role in the routine. Extended periods of connection in the line/solo dance team routine could result in penalties on your score sheet. Dancers in partner/couples dance team division may disconnect for up to 8 counts of music at a time. These periods of disconnections should be limited because the routine is primarily for dancers performing in partnership. Extended periods of disconnection in the partner/solo dance routine could result in penalties on your score sheet.

Costumes:

The costume requirements described here applies to all dance competitions at the World Dance Showdown. Dancers may choose to wear matching or non-matching custom or pre-made costumes of their choice. Elaborate costumes are not required. T-shirts and social dance attire are acceptable for any of the competitions. Costumes should be tasteful and appropriate for the dance type and should match the theme and style of the dance routine.

Costumes may be a blouse, skirt, one piece jumpsuit, shorts or slacks for women and shirt, pants and belt for men. Men may also wear vests, suit jackets, ties, suspenders or other costume items appropriate to the routine. If buttocks might be revealed during the dance, dance underpants should be worn for best coverage. Shirts may be tucked or un-tucked.

Cowboy hats and boots may be worn but are not required for men or women in the couples, line dance, choreography and Dance Team competition. Choice of shoes should be comfortable and appropriate to the dance style.

Costume modifications such as tear away, reversible skirts and hat tricks may be used during the dance routine provided it does not compromise safety of the dancers while they are performing. Props are only allowed in the Show-Stopper dance category.

Dance Music:

Competition music may be country or non-country in all dance competitions and should be appropriate to the dance style and theme of the dance. Couples competition music will be provided to couples for the 2-Step, Cha Cha and Swing competitions. Competition music for the line dance competition will be provided in advance for each competition line dance.

For all competition categories where dancers select their own music; Show-Stopper Dance Team, Show-Stopper Couples, Show-Stopper Line Dancer, Pro Am Line Dancer, Choreography and all Dance Team divisions, music selection may be country or non-country or a combination of both for custom mixes. Dance Teams and Show-Stopper competitors can use as many songs as they want in each dance routine provided the time limits are met. All music must be edited and combined into one mix for the competition. The DJ will not be able to change from one file to another during your performance.

Music selection must be in good taste and not contain explicit or vulgar language, vocals, messages or themes relating to disturbing, uncomfortable, inappropriate or violent scenarios. Please keep in mind that this is a family, social event with dancers who come from all walks of life. It is our intention to provide a holistic, family friendly environment for everyone to listen and dance to great music and have a good time.

Music information and mp3 files must be submitted by August 15, 2026 for all dance team, Show-Stopper and ProAm line dance entries where contestants select their own music. Please email your music in mp3 format only to hellotanyacurry@gmail.com. Please submit one music file for each dance team category you enter and one music file for Show-Stopper and ProAm competition you enter. In addition, please bring a backup of your music to the event on a usb drive and keep it with you.

Please label your music with the name of your dance team or your name and the competition category for that routine. For example: "*Hardwood Shiners Line/Solo Dance Team Non-Country*" or "*Tanya Curry Shook Pro Am Line Dance Competition Intermediate/Advanced*". If you are a couples or line dancer and entering the Show-Stopper competition, label your music with your name and the competition category for the routine. For example: "*Dale & Tanya Curry Couples Show-Stopper*" A sound check of your music will not be done by the DJ but

he/she will check your levels to ensure they are loud enough. If you prefer to have a sound check of your music, please let the DJ know.

Choreographers should send a description of their music to wdschoreomusic@gmail.com before August 10th to enable us to prepare the music for the dj in advance of the event, although we would appreciate if you sent this to us when you register the dance. Please send your music listed for each dance individually in this format:

Your Name
Dance Name

Artist Name

ORIGINAL CHOREOGRAPHY COMPETITION:

Please read these rules carefully if you are entering this competition to select the appropriate division for your dance.

Dancers of any experience level or age may enter the competition. This is your chance to showcase your creativity. Choreograph a Line or Pattern Partner dance and demonstrate it yourself or with friends. The choreographer entering the dance must have a weekend pass to the event. **Enter up to three dances in each category for a total of 12 entries combined for all divisions.** Competitor selects and provides the music information to be used for the competition. Please refer to the music requirements in the general section of these rules as it relates to music selection and submission to the World Dance Showdown.

Depending on the total number of entries as we get closer to the event date, we may stop taking more entries in one or more choreography divisions when the number of entries in that division is X (to be determined). Please register your entries with dance names, step sheets and videos (for International choreographers) as soon as possible. Please do not register a choreography dance on www.danceplace.com without a dance name.

Since this is a choreography competition, dances will be judged primarily on choreography (content/phrasing/flow). But, proper execution will be considered. It will be easier for the judges to evaluate a well-executed dance and a dance that is performed with clean execution is easier to learn and fun to do. 100 possible points will be given based on content, variety, originality and uniqueness of the dance and its relationships to the music chosen. Phrasing, flow, steps, balance of movement and directional changes will be considered. Entertainment value, promotional potential and how well the dance will be liked by other dancers will be judged as well. The name of your dance will be evaluated.

CHOREOGRAPHY COMPETITION REQUIREMENTS

No prior dance choreography experience is required. Choreographers will dance each entry through completion of four “vanilla” repetitions of the dance for all divisions except phrased. Phrased line dance entries in the Phrased dance division I and II will dance through completion of the final phrase change. The DJ will fade the music when you stop dancing.

Placements will be given for each line dance choreography division. An overall line dance choreographer award will be given. To qualify for this overall line dance choreographer award a choreographer must enter at least one line dance in each line dance choreography division: Beginner/Improver, Intermediate/Advanced, Phrased (either division I or II), Hip Hop, Soul and Christian line dance. Entries in the Pattern Partner Dance Division and Pinnacle Division will not be included in the determining the overall line dance choreographer award.

Country or non-country music may be selected for the choreography competition. See the music selection requirements of these rules for other requirements relating to music allowed in the World Dance Showdown dance competition. When entering the Hip Hop, Soul and Christian music choreography divisions, please use the music that matches these divisions.

A dance name, step description and video (for international choreographers) is required with your choreography entry when you register for this competition. **Step descriptions received before July 15, 2026 will be added to the dance step description book which is available for sale in ebook and usb format.**

Please list the dance name, your name, your email address, the level of the dance and the music used for the dance on the step description. Please use the first music/song stated on the step description in your competition performance at the World Dance Showdown. This is the song that we will play when you perform the dance in the competition. Please keep your step

description to one page if possible. Step descriptions should be emailed to wdsstepsheets@gmail.com when you register for the competition. Entries without a dance name on www.danceplace.com and without a step description will not be processed. Please note that there are no refunds for dance competitions entered. International competitors should send the dance video to hellotanyacurry@gmail.com through www.wetransfer.com

Please read the International page of the World Dance Showdown website for more information about how to enter the choreography competition and send your step sheets and videos.

Dances winning first place in any choreography competition including WDS 2025 may not be entered in the World Dance Showdown dance choreography competition other than in the Pinnacle division.
